Gulf Coast Car & Truck Repair
League City TX.
Attn: Mr. Frank Prisco

Dear Sir,

I can not Thank you enough for the jam you helped me out of over the Christmas and News Years holidays. After traveling to Texas from Michigan I needed to have air bags installed on my Ford F-250 pick up which I use to tow my camper. I called you on December 23rd and you ordered the parts and completed the job along with shocks on Jan. 28th. keeping my travel plans unchanged. Your crew at the shop was professional and willing to answer any questions that I had when I picked up the truck.

My ride home was most enjoyable the truck riding better than ever before, and the camper handled a lot better. For the most part I just set the cruise at 65 mph. and held on for the ride.

Frank thanks again for your help and when I am in town if work is needed on my car or truck you will be the man I call.

Regards & Happy New Year,

Rick Centers
